TAP MEDIA

**Register Now for the TAP Forum Round Table
Featuring Dr. Meryl Nass and James Roguski**

**TOPIC: Emerging Techno-Totalitarianism
July 6, 2023 @ Noon Pacific / 3:00 PM Eastern**

Dr. Meryl Nass and James Roguski discuss the work they are doing to report the truth about the emerging techno-totalitarian globalist enterprise.

Zoom in for what will be a cutting-edge discussion hosted by Chuck Fall and Chris Steiner about how the looming threats of medical techno-tyranny can be stopped.

REGISTER HERE FOR FORUM

We will ask Dr. Nass about her early work in 2001 to uncover the 9/11 anthrax attack and James about his 'truth awakening' from his take on the 9/11 events and how 9/11 set the stage for current events; then we will learn about a new organization she and James have teamed up to develop to oppose the emerging tyranny, and then review the latest developments coming out of the World Health Organization regarding adoption of the European vaccine passport, features of the Pandemic Treaty and the complementary International Health Regulations, and what We, The People, need to be doing to avoid loss of local, state, and national sovereignty to the un-elected World Health Organization.

Dr. Meryl Nass is a leading authority on the covert use of bioweapons, having testified before Congressional committees on Anthrax vaccine experimentation on U. S. soldiers. She has investigated the October 2001 Anthrax attacks on the U. S. Senate. Dr. Nass is a regular contributor to Children's Health Defense TV on issues related to vaccines and COVID and is a frequent speaker at international conferences about vaccines and COVID.

James Roguski has been a leader in calling attention to the efforts of powerful interests to turn the World Health Organization (WHO) into a model of world governance. The WHO, supported by philanthropists and the U.S. Government, is seeking to usurp not only the sovereignty of nation-states but also, the independence of scientific research under the guise of "pandemic preparedness."

Be sure to [register HERE for the July 6th Forum](#) so that you can join the free and public Campfire Chat discussion to follow!

Register Now for the TAP Campfire Chat that will be held to discuss what was heard at the TAP Forum Round Table with Meryl Nass and James Roguski on the Emerging Techno-Totalitarianism.

July 14, 2023 @ 8:00 - 9:30 PM EST

As an organization of supporters, TAP Campfire Chat gatherings will be centered around common elements and strategies for what we can do to recognize, appreciate, and help thought leaders in the movement. Discuss ways we can contribute to accomplish our collective goals, achieve success as a human race, reclaim individual and national sovereignty from the unelected World Health Organization. Coordinated action, with voluntary collaboration among different issue advocacy groups can benefit us all.

TAP Partners

**TAP is happy to welcome and announce one of its founding Partners, Community Hubb!
We recommend this amazing community and pledge our support!**

You won't want to miss their peaceful, uplifting, and appealing website.

[Click here](#) or on their logo to visit them and TAP suggests that you bookmark [their website](#).

Community Hubb also features **weekly classified listings!**

Community Hubb recognizes the need to connect as many freedom fighters as possible, to provide resources where individuals and groups can share information with each other. Community Hubb is a perfect partner for TAP and we are grateful to be working with them!

They say: In these times, it is particularly important that like-minded individuals stay in touch with each other through current news articles and local events. Whether your group has a small budget or a large budget, we can help you find a way to spread the word regarding the latest laws and regulations, along with general news that may impact your particular community.

So, if your group is ready to take the next step, please reach out to the owner of Community Hubb, Heather Wentworth, directly at: Heather@communityhubb.org.

Below are excerpts from the Community Hubb's "[Our Story](#)" page.

By recognizing who else is out there and what they may be doing, we can then embark on the task of building a new and healthy self-sustaining collective.

Many of us have come to the realization that we need to unite forces and create our own self-sustaining community – whereby we can rely on our own food sources, expand our knowledge as a group through an exchange of each other's wisdom and expertise, continue to learn and grow our individual talents within the context of the group, and trade items and services – perhaps even implement our own currency system.

We all contribute various talents and careers – some of us are musicians, or astrologists, nurses or doctors, teachers, farmers, herbalists, and on and on...but we are all united in the belief that we need to rigorously uphold the freedoms originally outlined in the U.S. Constitution and Bill of Rights.

By connecting organizations and individuals we can accomplish this important and urgent task of retaining our freedoms and advancing our sovereignty. We encourage community involvement on our website through submission of photos and recipes and communications on the message board. Although our immediate task at hand may feel heavy at times – we emphasize the need for our group to stay healthy and happy while pursuing our mission.

Community HUBB works locally and globally to help build a truth-based world and would make a great ally for other organizations like ours and yours.

Truth Report(s)

TAP congratulates the newly formed International Center for 9/11 Justice!

We support their mission and vision and suggest that you visit and bookmark [their website](#).

Below are excerpts from the Center's [About](#) page:

Mission: The International Center for 9/11 Justice is a nonprofit research and educational institute dedicated to establishing an accurate account of the 9/11 attacks and fostering a global realization and reckoning about the causes of this world-changing crime against humanity.

Vision: Our vision is the creation of a "post-9/11 world." By this, we mean a society that is no longer shaped by the false official account of 9/11 and that is committed to eradicating the elite criminality and institutional corruption that produced the 9/11 atrocities and facilitated their cover-up. It is a world that puts an end to the immoral and destructive policies enacted after 9/11 and begins to live up to the principles of peace, justice, freedom, and true democratic governance.

What we do: The Center engages in research and educational activities that are international in scope and multidisciplinary in nature. These activities fall into three categories:

Organizing, preserving, and presenting the best empirical 9/11 research and the enormous amount of data that has been produced over the past two decades.

Conducting new research into all aspects of the 9/11 attacks—especially those aspects that are likely to yield major advances in our understanding of 9/11—and into events related to 9/11 that occurred before or after.

Mounting actions aimed at raising mass public awareness and sparking broad-based demand for justice for the millions of people affected by 9/11 and its aftermath.

ACTION: In furtherance of its action-oriented mission, the Center spearheads all types of initiatives that have the potential to raise mass public awareness and spark broad-based demand for justice for the millions of people affected by 9/11. Among other things, the Center is currently assisting the family of British 9/11 victim Geoff Campbell in their effort to open a new inquest into Geoff's death in the North Tower. The Center also collaborates with grassroots activists and organizations working to generate widespread public support for a new 9/11 investigation.
